HOAC[®] SilentMove.

Discover the new motorized mobility.

Wafting decoration, running curtains, flying actors – HOAC[®] SilentMove, silent and designed for high load capacity, this track will move your scenery. Innovative accessory allows the use of motorized movement. The result: More dynamic and more fascination on stage.

Advantages

HOAC[®] SilentMove

- > Silent move on the track with HOAC[®] Carriage
- > High load capacity, flying of actors possible
- > Higher loads by coupling of HOAC[®] Carriages
- > Easy use for motorized HOAC[®] Carriages
- > Easy coupling to fly bars (50, 60, 70 mm)
- > Curves possible down to 2 m radius

HOAC[®] Carriage

- > Claps around the track for safety
- > Load capacity 375 kg (BGVC1)/750 kg (BGV D8)
- > Side-fed guiding wheels to avoid torsion
- > Pivoting suspension to put up decoration
- > Silent and calm sliding performance
- > Accessories for custom use
